

The French Grid Initiative - Status and Perspectives

Fairouz Malek

LCG-France

fmalek@lpsc.in2p3.fr

The presentation will give an overview of grid activities in France within the context of WLCG. LCG-France, the french grid initiative for LHC will be presented. The French Tier-1 hosts the four LHC experiments and is connected to a widely distributed list of Tier-2s. The talk will review LCG-France readiness for the LHC startup and explain works which have been undertaken in preparation. Problems encountered will be highlighted.
